- Heights above Playground surface are shown on decks and all play equipment, is.  $\varnothing$  = 400mm  
- Impact absorbing ground cover is required under and around all play equipment.  
- The min. recommended fall zone around the entire play structure is shown. This zone is to be free of all tripping or collision hazards (ie. roots, rocks, border material, etc).  
- Site layout and dimensions are subject to verification prior to installation.  
- Dimensions in millimetres unless stated otherwise.
